

# Civil/Structural Engineer

iEPC Limited and its parent company, AG Holdings Limited, are both wholly-owned subsidiaries of Ascendant Group Limited. iEPC Limited is pleased to invite applications from suitably qualified and experienced individuals for the position Civil/Structural Engineer.

**Key Job Responsibilities:** The Civil/Structural Engineer is mainly responsible for assisting and advising on all matters related to buildings, structures, and civil projects.

- ◆ Provide engineering support and solutions for new and existing civil structures, liaising with specialist engineering consultants as required
- ◆ Prepare technical reports in support of assessment findings, recommendations and design solutions
- ◆ Develop plans to identify future land, building and civil project requirements
- ◆ Prepare outline design concepts to include architectural drawings, with assistance of architects if required, cost estimates and programs
- ◆ Develop and manage projects from design through to implementation phase including environmental impact assessments, planning applications, preparation of tender documentation and evaluation of tenders
- ◆ Supervise and commission assigned projects and ensure proper project hand over including as-built documentation and occupancy certificates
- ◆ Liaise with colleagues, consultants and vendors to discuss or resolve civil/structural issues
- ◆ Keep abreast of current local and international civil/structural engineering standards, trends, technologies and continually brings leading edge solutions
- ◆ Support training and development of employees

**Key Job Requirements:**

- ◆ Bachelor of Civil/Structural Engineering from a recognized university or equivalent qualification
- ◆ Registered as a Chartered or Professional Engineer
- ◆ Minimum of five (5) years of experience
- ◆ In-depth knowledge of applicable engineering codes, standards and regulations
- ◆ Working knowledge of Government Health & Safety legislation and regulations
- ◆ Knowledge of best industrial practices related to process and civil/structural projects with specific reference to international standards of specifications and technological trends
- ◆ Proven track record of successful projects, excellent project design and project management skills. A Project Management Professional (PMP) certification or equivalent would be an asset
- ◆ Strong technical, problem-solving and analytical skills, as well as interpersonal and communication skills
- ◆ Proven ability to coach, mentor and develop others
- ◆ Must be a highly motivated and flexible team player

*iEPC Limited is a drug and alcohol free environment, and as such, requires all successful applicants to successfully pass a pre-employment drug and alcohol screening prior to an offer of employment.*
