

We're hiring an Actuary Senior.

We require a part-qualified actuary to assist our clients with economic capital modeling, determination of loss reserves and to work on audit support engagements. Experience with property and casualty as well as life insurance, health insurance and pensions would be desirable. Candidates should also possess the following:

- Progressing towards membership of either the Casualty Actuarial Society, Society of Actuaries or equivalent
- Strong exam record
- Experience with dynamic financial analysis including pricing and economic capital modeling
- Strong client communication skills, both written and oral
- Ability to successfully communicate actuarial concepts to non-actuaries
- Assignment outside traditional actuarial department desirable
- Prior consulting experience desirable
- Self-motivated with strong marketing skills

Applications should be sent in writing, marked "Private & Confidential", by November 28, 2014 to:
