## **Software Engineer**

**Gateway** are seeking a professional **Software Engineer**, with at least four (4) years' relevant experience in application development, using C# or VB, and ASP.NET or MVC.

Excellent communications skills are mandatory as the job involves working very closely with customers and prospective customers. Candidates should be self-motivated, and able to work alone, or as part of a larger project team. They should also possess proven system analysis and design knowledge skills. Experience in SQL Server and Microsoft Office would be a decided advantage, while experience in Crystal Reports, Delphi, SharePoint, WCF and JavaScript is a definite asset.

Responsibilities will include business requirements analysis, database and application design, programming and testing of new systems, but maintenance of existing and some legacy systems is also part of the job.

An excellent salary and benefits package will be offered to the selected candidate(s). Applications, in writing only, accompanied by a resume and references should be forwarded to:

Human Resources  
Gateway Systems Limited  
10 Queen Street  
Hamilton HM 11

or by e-mail to: [gjack@gateway.bm](mailto:gjack@gateway.bm)

Closing Date for Applications: **February 20<sup>th</sup>, 2015**
