

On behalf of our client

Hamilton Medical Center Ltd.

We are seeking a

Medical Laboratory Technologist/Lab Manager

Medical Laboratory Technologist required to work in and manage a small private Medical Lab servicing diagnostic blood tests ordered by GPs and Medical/Surgical specialists. The applicant must have a recognized and respected four (4) year qualification as a Medical Lab Tech and have experience in and be versatile enough to perform basic haematological, biochemical and urological analyses (microscopy where relevant) on blood and other body fluids.

The successful applicant will also manage the lab at an administrative level and work towards the maintenance of full COLA accreditation. They must be computer literate, able to "trouble shoot" diagnostic equipment and have experience with the Vitros 5.1, Vitros 350, ECIQ and the Beckmann Coulter haematology analyzers. Must have experience in certifying a laboratory for the COLA accreditation process.

Phlebotomy proficiency is necessary.

This is a full time position involving 35 hours per week with evenings. Saturday mornings are expected and this may be increased to a full day if necessary. Holiday leave is 10 working days per year after the first year.

Three (3) excellent employment letters of reference are required to accompany the application.

Please send a resume and a minimum of three (3) employment letters of reference marked Private and Confidential to:

**Heidi Capuano, SOS Limited, P.O. Box HM 1721, Hamilton HM GX,
