

*Our people* are our competitive advantage.

At Butterfield, we pride ourselves on being approachable, disciplined and proactive. If you embody these qualities and have the necessary experience, you may be the one we're looking for.

## Senior Reporting Analyst

### Credit Risk Management

This position reports to the Vice President & Group Head Analytics & Reporting and is responsible for developing, designing, validating, deploying and documenting reports to streamline the Group's loan reporting platform.

#### Your responsibilities will include:

- ensuring the monthly and quarterly preparation and production of key summary reports, including the identification and tracking of existing and emerging credit risks
- ensuring regulatory submissions comply with the regulators guidelines
- identifying incorrect core loan data and designing processes to correct and ensure completion through disciplined project management
- ensuring timeliness and accuracy of data, adhering to internal accounting and credit policies and external regulatory reporting guidelines
- ongoing development of Management Information data gathering and reporting methods to support management reports and designing approaches to loan portfolio analysis using internal and external data sources
- researching, recommending and implementing new analytical tools to facilitate querying and ad hoc analysis supporting management on the ongoing collection and analysis of Group loan data from a variety of sources
- revising and applying methodologies for risk assessment and stress testing of the Group's loan portfolios
- undertaking special projects, as assigned by management

#### Your experience/skills may include:

- University degree in Business, Commerce or equivalent with five years relevant post qualification experience in financial services
- accounting designation (CA, CPA) would be an asset
- strong accounting and US GAAP knowledge with highly developed mathematical skills and demonstrated ability to work with complex data
- ability to import and format large quantity of raw financial data and then perform further critical analysis
- ability to produce high quality deliverables on time, multi-task aptitude, and to work flexible hours
- good communication, interpersonal, organisational and problem-solving skills
- highly proficient in Microsoft Office suite of applications specifically MS-Excel and MS-Access

CLOSING DATE: 10 April 2015
