

We're hiring Actuary.

We require an Actuary to assist our clients with economic capital modeling, determination of loss reserves, audit support, risk management and other actuarial consulting engagements.

Primary requirements include:

- Fellow of the Casualty Actuarial Society or equivalent
- A minimum of ten years of Property & Casualty pricing, reserving or risk modeling experience
- Experience with respect to the Bermuda Monetary Authority's regulatory regime for Solvency II equivalence preferable
- Experience with insurance company risk management
- Experience with dynamic financial analysis including economic capital modeling
- Ability to manage competing priorities
- Ability to successfully communicate actuarial concepts to non-actuaries
- Prior consulting experience desirable
- Self-motivated with robust marketing skills; an ability to influence; and develop strong business relationships
- Strong client communication skills, both written and oral

Applications should be sent in writing, in the form of a resume and cover letter, marked "Private & Confidential" to:
