Project Superintendent

Our client, **Bermuda Energy Services Company Limited (BESCO)**, is seeking a **Project Superintendent**.

Minimum Qualifications, Skills & Experience:

The successful candidate will have a minimum of eight years experience in the project management of electrical systems, including staff supervision. He / she will be required to coordinate all aspects of the tendering and job estimates process, as well as successful project execution in the field. These will include installations of HVAC control systems, Fire alarm detection systems, standby diesel and LP gas generators, electrical power distribution systems, Uninterruptible Power Systems (UPS), and small to large APC Data Centers.

The successful candidate must be a qualified electrician / technician and have previous installation and commissioning experience of the majority or all of the above systems. The position requires excellent written and verbal communication skills.

A complete and thorough understanding of the National Electric Code NFPA 70 is required. Strong skills and experience with AutoCad, electrical estimating software, and Microsoft Office Suite would be a distinct advantage.

Interested? Please email jobs@expertise.bm.

All enquiries will be dealt with in strict confidence.

Closing date: April 27, 2015
