## *Senior Associate - Consulting*

PwC Bermuda helps organizations and individuals create the value they're looking for. We're a member of the PwC network of firms in 157 countries with more than 195,000 people. We're committed to delivering quality in assurance, tax and advisory services. Our consultants help clients realize competitive advantage from operations. Our high performing advisory team translates business strategy into operations strategy and transforms operations to drive both growth and profitability.

We are currently looking for a senior associate with leading edge consulting experience in procurement and supply chain management. Specific areas of focus include procurement governance, category spend analysis, inventory management, stock optimisation, product standardisation, category management, contract/vendor management, procurement policy and procedures, and IT systems (procurement to payment).

Candidates must demonstrate proven knowledge and success with leadership, strategic and creative thinking, problem solving, and individual initiative.

### ***Responsibilities will include and are not limited to:***

- Working on tight deadlines to deliver high quality expertise in supply chain procurement with limited direct supervision;
- Communicating in an organized and knowledgeable manner in written and verbal formats including delivering clear requests and interviews for information, creating materials that effectively communicate results and implications, and communicating potential conflicts; and
- Teaming with others including building solid and collaborative relationships with team members, contributing to innovation, and proactively seeking guidance, clarification and feedback.

### ***Capabilities/Skills Required:***

- Degree educated (undergraduate at a minimum) with specialisation in Supply Chain Management;
- Proven success in pursuing a certification in Production and Inventory Management or similar globally recognised certification in procurement;
- Minimum of 5 years of recent relevant experience. Big 4 consulting experience preferred. Technology workstream, and specifically, software implementation experience is essential with healthcare experience an advantage; and
- Ability and willingness to travel overseas as required.

### ***The opportunity of a lifetime***

**Interested candidates should apply in writing, including your resume to:**
