

Our client – MS Frontier Reinsurance invites applications for the position of:

Senior SAP Developer Analyst

Our client...MS Frontier Reinsurance Limited is a reinsurance company domiciled in Bermuda, specializing in Reinsurance on a global basis.

MS Frontier Re is a member of MS & AD Insurance Group (MSAD), one of the largest general insurance groups in the world. The Company is seeking an outstanding individual for the role of Senior SAP Developer Analyst.

Key roles and responsibilities:

- Lead, manage and prioritize projects with multiple departments for SAP implementation, support and future customization;
- Manage and document various SAP customization projects through the complete life cycle;
- Clearly communicate project expectations to team members and stakeholders via weekly / monthly reporting;
- The installation, administration, configuration and maintenance of the Company: SAP R/3 system: Business Partner, FS-RI, FS-CD, FS-GL and BW reporting system;
- Ability to program in ADAP would be an asset;
- Administration of SAP database warehouse: working knowledge of Oracle and MS SQL datasets;
- Administration and maintenance of data backup systems and procedures for SAP R/3 systems;
- Act as expert resource for SAP related issues in the home office and overseas subsidiaries;
- Flexible schedule to accommodate any necessary after hours work required for maintenance upgrades or repairs, or to respond to emergency calls during the Bermuda evening or night;
- Assist in data migration strategies from legacy systems to new SAP R/3 implementation;
- Ability to assist in OS/DB migration projects as needed;
- Coordinating SAP R/3 support and incident management with SAP Enterprise Support; and
- Providing assistance and mentoring IT staff in SAP Basis and fundamentals.

Reporting to the Corporate Technology Executive the role of Senior SAP Developer Analyst is a challenging position requiring proven technical, compliance and operational capabilities. The successful candidate will need to demonstrate the following required skills and experience:

- Bachelors Degree in Computer Science/Information Technology or equivalent work experience
- Minimum 5+ years of SAP functional development and customization
- Demonstrable experience: With SAP R/3 config: FS-RI, FS-CD, FS-GL, BW and ADAP programming.
- Demonstrable experience: Oracle and MS SQL queries
- Demonstrable experience: Report writing in BW and Netweaver clients.
- SAP Certification in SAP Basis, ADAP Programming, FS-RI, FS-CD module
- Strong analytic skills and experience with Reinsurance underwriting terminology and understanding fundamentals of reinsurance accounting would be an asset;
- Willingness to travel overseas at short notice and work evenings, nights and weekends; and
- Ability to work well in a small team environment.
