

## Senior Claims Examiner, Excess Casualty Claims

Markel Bermuda Limited has an opening for a Senior Claims Examiner, Excess Casualty Claims. The successful applicant will be responsible for handling commercial casualty claims involving large sophisticated policyholders, with an emphasis on claims emanating out of the European branches of Markel Global Insurance. The successful candidate will take a hands-on approach to handling claims and will be comfortable engaging with senior officials both inside and outside the Markel organization to resolve contentious claims. This position will report to the Manager, Excess Casualty Claims.

### Duties and Responsibilities:

- Analyze incoming claims for exposure and coverage issues;
- Prepare detailed acknowledgment letters and formal reservation of rights, analyzing the noticed claim and referencing relevant policy language and applicable law;
- Prepare data and reports as requested by financial, underwriting and claims management of the Company, including periodic and special reporting;
- Take responsibility for investigation to resolve open factual and legal issues and make appropriate reserve and settlement recommendations;
- Prepare internal documentation in support of reserving, payment, and other formal claims activity;
- Work closely with outside counsel and Third Party Administrators to monitor contentious claims and work with insureds to resolve underlying litigation;
- Present coverage and claims analysis to management and make recommendations on resolution of disputed items;
- Participate in both internal and external audits;
- Assist underwriters with account renewals;
- Communicate with brokers, clients and underwriters.

### Qualifications and Experience:

- University degree required;
- Advanced degree in insurance-related studies preferred;
- 10+ years' experience working in the insurance industry;
- Strong technical knowledge of excess casualty and general liability policies, including occurrence-reported, occurrence and claims-made policy forms;
- Strong technical knowledge of the Lloyd's insurance market and slip policy wordings;
- Experience in analyzing insurance claims development and reserving profiles;
- Strong technical knowledge of U.S and UK insurance regulations;
- Solid understanding of insurance coverage/legal issues;
- Experience in drafting and interpreting insurance policy wordings;
- Competency in Microsoft Office Suite, and the ability to learn new computer systems;
- Excellent written and verbal communication skills.

Interested persons should apply in writing no later than August 12, 2015 to:
