

MASS LTD.

Machining, Fabrication and Steel Sales

requires a

C.N.C. MACHINIST

The successful applicant must have a minimum of five years experience as a CNC Milling Machinist and Lathe tradesman. Reading Mechanical Engineered drawings is essential. CNC experience should include programming, setting and operating Lathe and Milling Machines with focus on Auto CAD design work. This position also requires that the individual have CWB flat and horizontal welding ticket with experience in MIG, TIG, ARC welding, and operating overhead traveling cranes. Operating other shop equipment will also include roller, brake, plasma, drill press, and forklift. Steel Fabrication experience is required. The ability to balance multiple tasks, work under minimum supervision and be an effective team player and leader is essential. Occasional weekend and night work will be required.

MASS Ltd. is a smoke free, drug free work place.

All potential/successful candidates will be drug tested.
