

## **FULL OR PART-TIME RESEARCH ANALYST/COACH**

This position calls for a master's level degree in counseling/coaching with at least 5 years' experience addressing a full range of personal and workplace-related issues. The post-holder will need to demonstrate expertise with Employee Assistance Program (EAP) core-technology and be competent in executive & life coaching as well as in organizational assessment and consulting - significant activities in working with our client companies. In addition, it is essential that the post-holder be conversant with research and evidence-based practices and be willing to take on the administration of our clinical software in creating outcome-based research reports for client companies.

We have a busy and growing professional practice addressing the needs of our client- companies, their staff, and families. Resumes will be received until October 30th 2015 & should be sent via e-mail to [vmosher@ibl.bm](mailto:vmosher@ibl.bm) or by mail addressed to:
