

Electronic Communications Ltd

General Manager

ECL is the premier TETRA radio service provider in Bermuda. This appointment is for the General Manager who is responsible for the day to day operations of the company.

The qualified individual will be required to lead local sales, run the technical team including all aspects of delivery, configuration, repair and warranty procedures and will be accountable for bottom line performance. He or she will play a major role in the development of the company including development of new products and the expansion of the business inside and outside Bermuda. This is an operational management position, it is expected that the successful candidate be willing and able to work overtime to meet the needs of the business. It is a hands on position requiring in depth knowledge of telecommunications systems.

Key requirements:

- A Bachelors degree or equivalent in Telecommunications or Electrical Engineering.
- 5 Years experience in configuring and delivering radio and TETRA networks.
- Strong experience running technical teams of up to 10 staff and proven ability as a team leader.
- A minimum of 5 years experience in technical sales, marketing or sales support.
- In depth experience in the design and deployment of microwave and IP network infrastructures.
- Knowledge of SNMP, signalling protocols and message store and forward systems.
- Proven experience in setting budgets, margins and management of profitability.
- Proven ability to write software apps, program radios and network devices and to be able to fault find to deliver solutions.

Interested persons should apply in writing, no later than November 17th, with a detailed resume marked
"Private and Confidential" to the address below or by
e-mail to info@ecl.bm

Applicants will be required to complete a 15 minute exam in telecommunications technology to confirm suitability.
