

POSITION: REVIT AND AUTOCAD TECHNOLOGIST
LOCATION: BERMUDA

Duties include: Drafting and modeling in 2D and 3D AutoCAD and Revit programs for Mechanical, Structural and Electrical disciplines. Discipline coordination, design assistance, and data entry also included.

Qualifications to include: Proof of Autodesk Revit training courses. Engineering technologist qualification is a plus.

Required Computer skills: Autodesk AutoCAD & Revit, Microsoft Office.

Experience: Minimum 2 years of Revit experience in an engineering design office.

All applicants will be required to sit a computer/written examination during their interview to assess Revit modeling, drafting and design skills along with basic engineering comprehension.

Applicants may be required to work on weekends and public holidays as work dictates.

Remuneration will be based upon experience and commensurate with industry standards.

All applications should be sent to cburns@onsite.bm by December 18th, 2015:
