

Senior Corporate Finance Manager

Enstar Limited, a wholly-owned subsidiary of Enstar Group Limited, a Nasdaq listed company which acquires and manages insurance and reinsurance companies, is seeking a professionally qualified accountant for the role of **Senior Corporate Finance Manager**. This position will appeal to a well-organized and experienced candidate.

The main responsibilities of the position are as follows:

- Design and build effective management reporting for a wide range of stakeholders, across various departments and senior personnel
- Assist with quarterly Board reporting, including analysis of performance and other management information required at the corporate level
- Preparation of materials for banks, rating agencies, investor presentations and other shareholder information
- Responsible for day to day preparation of group financial planning and analysis
- Developing cash flow forecasts, ensuring liquidity needs are met for group corporate purposes
- Assisting corporate finance team on capital-raising projects and acquisition-specific financing, including participation in strategic discussions
- Assist with accounting for business combinations, complex transactions, non-controlling interests, intra-group transactions and financing arrangements
- Involvement and assistance with group-wide capital modelling, group supervision, and group regulatory reporting requirements
- Continuously improve finance group's reporting to management, Board and corporate governance committees
- Maintain effective documentation for risk management and internal controls in a Sarbanes-Oxley environment, operating under COSO 2013 requirements
- Assist with other finance functions (e.g. budgeting, planning, corporate finance, regulatory)
- Develop and maintain strong relationships with the business and service providers
- Keep up to date with current requirements and insurance industry trends
- Assisting with ad hoc projects and other duties as required by management

Qualifications:

- Bachelor's degree in a relevant field (e.g. Accounting, Finance)
- An internationally recognized accounting designation (CPA, CA) is necessary, a further relevant industry designation would be an advantage
- At least 5 years of relevant work experience with a Big-4 audit background, SEC insurance client experience required, industry experience required
- Experience within a complex organizational structure, multi-national, highly-regulated environment required
- Comprehensive knowledge and experience of US GAAP, SEC and BMA reporting, knowledge of US/UK Statutory reporting requirements
- Experience with capital transactions, complex arrangements and deal financing an advantage
- Ability to perform independent research, prepare written reports and presentations to a wide variety of audiences
- Self-motivated, strong sense of urgency and initiative, highly organized and able to effectively manage multiple priorities in a fast-paced business environment
- Advanced working knowledge of Microsoft suite of applications, specifically Excel and PowerPoint. Business-side financial software development skills an advantage
- Must show initiative, and demonstrate ability to work both independently and as part of team
- Proven track record of interacting with senior management, cross-functional personnel throughout the group, external parties, while demonstrating a high degree of professionalism
- Excellent communication (written and verbal) and interpersonal skills are essential
- Commitment to meeting strict deadlines, ability to travel and work overtime as required
