

Technology Leadership Forum Internship Programme

SUMMER 2016 TECHNOLOGY INTERNSHIP SPACES AVAILABLE

Are you presently studying IT in College or University If so, we are looking for you!

Each year, several high-achieving undergraduate students are selected to participate in the TLF Summer Internship Programme. The programme is a 12-week unique summer enrichment internship programme that provides students with the opportunity to gain direct experience within the ICT industry by working alongside local industry experts, with exposure to career opportunities in the ICT field and connections to valuable professional and peer networks.

If you are interested in technology and currently studying computer science, computer engineering, electrical engineering or a related area of study, you may be an ideal candidate for the TLF Summer Internship Programme. The TLF Summer Internship Programme is an excellent opportunity to get a well-balanced, real world experience in the ICT industry in Bermuda.
