Service Plumbing Mechanic

Bermuda Air Conditioning Ltd. is seeking to employ a Service Plumbing Mechanic. The successful candidate must have a good working knowledge of water heating systems, all types of water and sewage pumping systems, plumbing fixture repairs, field wiring, and the ability to troubleshoot plumbing system faults. This position requires a rotating on-call schedule of twenty-four hours a day duty, seven days a week, including Public Holidays.

Specific Responsibilities:

- Knowledge of troubleshooting, diagnosing and repairing residential, commercial buildings plumbing systems and equipment control panels.
- Ability to communicate with homeowners in laymen's terms.
- Repairing and replacing above and below ground water/sewer piping, and drain cleaning, in a residential and commercial setting.
- Diagnosing and repairing hot water circulating systems.
- Repairing and replacing all types of water and sewage pumps and controls.
- Performing other job related duties when assigned.
- Repairing and replacing all types of plumbing fixtures, trim, gas, electric, and tankless water heaters.
- Moderate electrical knowledge including understanding of wiring schematics.
- Knowledge and previous experience with vertical turbine pumps and controls.

Minimum Qualifications:

- High school diploma or GED required.
- A recognised journeyman plumber certificate.
- Must have a valid commercial driver's license and acceptable driving record that meet insurance requirements.
- Minimum of 5 year's of continual experience working in the plumbing service industry.
- Must be able to lift up to 75 lbs.
- Must possess excellent customer service skills.

Closing date: 15 April, 2016

All applications should be submitted in writing with a resume and references to:
