

**Our Client AirServ**  
requires a  
**Commercial HVAC Chiller Technician**

Successful applicants must have strong knowledge of chiller experience to join our team. Duties include maintenance, troubleshooting, installation, repair, tear down and rebuild of commercial chiller, packaged equipment, make-up air system, computer room equipment, and other commercial and industrial HVAC-R application. Technicians are expected to have strong trade skills with the ability to read specifications and drawing as required contracts.

**Job Requirements**

The successful candidate must have 5+ years experience, EPA cert, excellent communication skills and a clean driving record. Additionally candidates must possess a current Master's Card for HVAC maintenance or its equivalent. An appropriate license to work with the refrigerants is also a must, knowledge of Trane, Mistsubishi, Carrier, York, LG, and Daikin products is an advantage.

It is imperative that the potential employee is committed to excellence in quality and providing clients with the value base on service, while also being committed to meeting and exceeding the customer's expectations. AirServ employs a small group of highly effective people who form a single unit fully committed to the success of the entire team. AirServ Ltd. is committed to a drug free workplace; any new employee maybe subjected to a pre-employment drug test.
