

Northshore Medical is seeking a licensed doctor of naturopathic medicine to work full time in a busy collaborative clinical setting. Candidates must have a minimum of 4 years of clinical experience and be comfortable with public speaking, medical research and publishing.

The Naturopathic Doctor (ND) must have a valid practice license, IV certification and a valid drug furnishing authorization. The applicant must be well groomed and pleasant, and possess excellent interpersonal and teamwork skills, autonomy, problem solving, teamwork, and be willing to take personal responsibility for the delivery of the highest quality of patient care.

Our ND patients require basic health screenings, diabetes management, weight loss support, diet and nutrition advising, acupuncture, homeopathy, hypnosis, management of food intolerances, hormone imbalances, mood disorders, detox, adjunctive cancer support, IV nutrients and IM injectable.

Applicant must be knowledgeable in naturopathic endocrinology and BHRT, digestive system disorders, allergies and food intolerances, adrenal fatigue, anti-aging medicine and aesthetics.

The successful candidate will be able to deliver evidence based naturopathic medicine to a varied patient population and also to assist with patient centered health care delivery to a widely varied patient population. You will be expected to stock and manage a natural medicine apothecary, and to order and manage IV nutrition services.

Applicant must be willing to work some weekends and evenings are required for special events and community outreach.
