Bermuda Information Technology Services (BITS) Ltd.

requires a

Senior IT Systems Integration Consultant

Providing top-level IT consultancy expertise to local and international companies, BITS Ltd. is currently inviting applications for the above.

To successfully support our existing clients, applicants for this senior position must possess the following skills and qualifications:

At least ten years experience in Systems Integration, Network Systems Development and extensive experience of the majority of the following:
- Active Directory Design, Scripting and Automation, Querying, Import/ Export
- Group Policy and Windows Registry Expertise.
- Microsoft MCITP Enterprise Administrator Windows 2008/2012 or equivalent certification.
- Microsoft MCTS for .NET WPF or equivalent certification
- Disaster Recovery and Redundancy, Replication for Enterprise systems, DFS.
- Software Distribution: Desktop Authority, SCCM, Altiris, WinInstall
- Solid understanding of LAN and WAN technologies: Ethernet, TCP/IP, DHCP, DNS
- Windows Security including Patching, Auditing and Remediation.
- MVVM and MVVMLight
- Prism
- WCF (web services)

In addition, this senior-level post would require:
- Solid programming experience in C#.NET, VB.NET, ASP.NET, VBScript, including LDAP, WMI, SQL, Web Services, XML, MVC, SQL Stored Procedures and PowerShell.
- Extremely strong troubleshooting skills.
- Proven ability to propose and implement effective solutions to a variety of business problems.
- The poise and maturity to communicate effectively at all levels.
- Excellent written and oral communication skills.
- A University degree (or equivalent), in Computer Science or a related discipline would be preferable, though a comprehensive & proven track-record in the field would compensate.

The candidate must be service-oriented, self motivated and able to work unsupervised, on their own initiative. Project deadlines often require working evenings, weekends and public holidays.

Interested parties should forward their Resume by email to BITS@bits.bm
