

# Radiation Therapist - Radiation Oncology

**Bermuda Cancer and Health Centre** ([www.chc.bm](http://www.chc.bm)) **welcome applicants for the positions of Radiation Therapist - Radiation Oncology.**

Under the direction of the Chief Radiation Therapist, the Staff Radiation Therapists are responsible for performing simulations; and accurately delivering radiation therapy treatments as prescribed by the Centre's Radiation Oncologist. The Centre is a single LINAC facility which will be highly team managed for our community.

## **Qualifications of Radiation Therapist**

1. Must be a graduate of an accredited Radiation Therapy training program, BS preferred.
2. Must hold an active certification by the ARRT
3. Minimum of 2 years of clinical radiation therapy experience preferred.
4. CPR certification is required
5. Membership in professional organizations is recommended.

Bermuda Cancer and Health Center is a patient-focused not-for-profit located in the idyllic island of Bermuda. Our Centre's mission is to provide early cancer detection services, awareness, prevention support, and in mid-2017 we will begin radiation therapy treatment for our island community.

Our Centre is committed to a work-life balance philosophy for all members of our team. The right candidate for us will be an individual who will work closely with the Radiation Oncology team, Executive Director and Medical Director / Radiation Oncologist to lead and mentor our team, to maintain standards, targets, audit and guidelines which meet international best practices.

**Interested candidates can email their resume and cover letter to: [applications@chc.bm](mailto:applications@chc.bm)**

**Deadline: Jan 6, 2017**
