

On behalf of our client, **The Bermuda Heart Foundation/ CORE Heart Health Center**, we are currently seeking a **Nurse Practitioner**.

The CORE Nurse Practitioner (NP) will work as an integral part of a multidisciplinary prevention/rehab team to manage patients. The nurse practitioner will play a leadership role that is responsible for the management and utilization of our delivery of services. The nurse Practitioner will have a strong foundation in evidence based practices and education. The NP will work under the direction of our physicians and will demonstrate clinical competence and sound clinical judgement to ensure a safe quality of care is provided to every patient.

The NP will ensure compliance in clinical documentation, develop individual treatment plans and be in active communication with patients' general practitioner and all in house team members. The NP will provide preventative health education and support to patient/family members to ensure understanding and retention of health education and nutritional modules.

*Further responsibilities will be but not limited to:*

- Clinically assist the Cardiologists;
- Assist in performing stress testing, EKG and other required testing;
- Provide case management and patient education;
- Ensure evidence-based patient centered care that foster informed choice;
- Provide post procedural follow-up care;
- Implement a specialty service within the practice such as a congestive heart failure clinic or lipid clinic.

*Requirements:*

- Must have a MSc in health care and be a Registered Nurse (RN);
- A minimum of 5 years' experience working as an RN;
- Prior working experience with EKG assessments;
- Strong administrative skills, ability to maintain accurate medical records;
- Caring and patient individual that can maintain confidential information; and
- Proven ability to work well with a multidisciplinary team of professionals.
