Plant Operator

Bermuda Electric Light Company Limited (BELCO) invites applications from suitably qualified and experienced individuals for the position of Plant Operator. This role is mainly responsible for recording and monitoring diesel engines and gas turbines, generator and auxiliary.

Key Job Responsibilities include, but are not limited to:

- Monitoring and recording all pressures and temperatures of the air, fuel, lubricating jacket and injector cooling water systems pertaining to diesel and gas turbine sets;
- Starting and stopping engines under the direction of the Foreman;
- Carrying out minor running repairs and housekeeping tasks; and
- Providing guidance and on-the-job training to team members.

Key Job Requirements:

- High School Leaving Certificate or equivalent
- Certificate in Power Engineering (Class 4) or equivalent certification such as Technical College Certificate or City and Guilds Level 2 Certification
- Minimum of two (2) years post apprenticeship experience as Plant Operator in a utility industrial environment
- Proven ability to operate energy supply equipment and systems, including diesel and gas turbine generating plant and related auxiliaries
- Basic knowledge of recommended practices related to the efficient running of plant and equipment
- Excellent observational skills
- Strong analytical and problem-solving skills
- Ability to interpret and follow equipment and training manuals
- Strong written and verbal communication skills
- Good physical condition and ability to lift tools and equipment (e.g. ability to climb and work in confined spaces)

If your experience matches this role please forward your cover letter and resume to:
