

Specialized Technologies Ltd. is seeking to employ a qualified Petroleum, Steam and Hydronic Pipe Fitter. The successful candidate will be responsible for the installation of petroleum related systems, process piping and equipment of every description; performing site work, and providing equipment and industrial maintenance, petroleum services and maintenance including equipment automation in the residential, commercial and industrial sectors of the marketplace.

This is a highly specialized position and applicants must have proven previous experience in the following areas:

- All aspects of installing and maintaining pipe systems, pipe supports, and related hydraulic and pneumatic equipment for petroleum, generator systems, steam, hot water, water and sewage treatment, heating, cooling, lubricating, and industrial production and processing systems.
- Ability to design, maintain, fabricate and ensure proper installations of pipe support systems and related hangers where seismic restraint is specified.
- Must be able to perform work on process plumbing systems and their appurtenances, as well as petroleum dispensing systems, hydronic systems, boilers, generators and their safety devices, panel systems, and solar heating systems.
- Working with pipe or tubing that may be copper, steel, cast or wrought iron, brass, bronze, glass, plastic, concrete or any material from which pipe can be made. The sizes range from 1/16 inches up to 3 feet and larger in diameter. Joins pipes mechanically by threading, flanging, compression or friction joints by soldering, brazing or welding including shielding metal arc welding; gas tungsten arc welding, gas metal arc welding and oxy-fuel gas welding. Cuts pipe and tubing using mechanical sharp wheel cutters, oxy-fuel gas cutting torches and plasma arc cutting equipment. The proper arc safe operation of a roll grooving machine is paramount as very large piping will be installed.

All candidates must be willing to take instruction; work as part of a team and be able to withstand physically challenging working conditions. Overtime and weekend work will be required. Interested persons should apply no later than August 11th 2017 to Performance Solutions Limited, Suite 350, Par-la-Ville Road, Hamilton HM 11. Email hr@psolutions.bm, Telephone: 232-5270, Fax: 232-5270
