

AXIS SPECIALTY LIMITED

VICE PRESIDENT, HEAD OF REINSURANCE RISK MANAGEMENT

AXIS Specialty Limited is a wholly-owned subsidiary of AXIS Capital Holdings Limited, a NYSE-traded company and global provider of specialty lines insurance and treaty reinsurance with offices located in Bermuda, the United States, Europe, Singapore, Middle East, Canada and Latin America. We currently invite applications for the position of Vice President, Head of Reinsurance Risk Management.

This position has responsibility for the design, implementation and management of the risk management framework for AXIS' reinsurance business. It is expected that the post holder will work closely with underwriters and actuaries within the business to develop tools, management information and risk processes to help manage risk, improve capital efficiency and inform strategic decision making. The individual will be responsible for the risk analytics and exposure control throughout the Reinsurance segment covering portfolio modelling, exposure management, risk financing and transaction support.

Key Responsibilities:

- Develop a suite of portfolio models in support of the group capital modelling function and the calculation of risk adjusted return metrics.
- Manage the articulation of capital allocation and risk adjusted returns back to the business and provide underwriters with the tool to manage these.
- Support business planning and high level strategy.
- Collaborate with actuarial teams to perform scenario analysis, stress testing and sensitivity testing to validate portfolio and pricing models and their key assumptions.
- Provide risk modeling and other analysis for emerging risks, extreme events, and capital impairment threats and develop controls to manage these relative to the group risk appetite and tolerances.
- Develop analytics to assess the viability of new products and business opportunities.
- Develop analytics in support of risk financing strategies in accordance with company objectives with respect to capital management, risk appetite and profitability.
- Integrate in-house and licensed risk management tools with our own platforms and processes to realize their value and bring risk management to the point of underwriting.
- Monitor industry developments and "ERM Best Practices" and recommend process improvements as appropriate.

Required Qualifications, Skills and Experience:

- Professional actuarial designation such as Fellow of Institute of Actuaries or equivalent professional body
- A minimum of 7 years' post-qualification experience, preferably within the reinsurance industry
- Extensive enterprise risk management experience (capital modelling, portfolio modelling, risk accumulation, risk financing)
- In depth technical line of business knowledge for key lines of reinsurance business.
- Strong IT developmental skills including proficiency with C#, .net, VBA and SQL.
- Excellent verbal and written communication skills
- Strong work ethic, commitment to meeting deadlines, and ability and willingness to work overtime and on weekends/public holidays when necessary

To apply for the above position, please visit our career page at www.axiscapital.com and submit a resume and cover letter.

Closing Date for applications: August 25, 2017
