Risk/Catastrophe Modeling Analyst

Job Number: 14001389
Close Date: September 29, 2017

We invent the new to help the world move forward. Combining powerful analytics and deeper insights with bigger ideas and innovative solutions, we free up our clients' potential, thereby fulfilling our own. Take it seriously. Make it fun. Know it matters.

MAXIMIZE your opportunity

XL Catlin invites applications for the position of Risk/Catastrophe Modeling Analyst. The successful candidate will be responsible for supporting the underwriting process through the use of property catastrophe models.

What will your essential responsibilities include?

- Perform catastrophe modeling independently including complex cases. Analyze and recommend enhancements to modeling processes.
- Contribute to on-going development and initiate improvements in the work-flow process where the catastrophe modeling team can add value.
- Communicate analysis procedures, conclusions, and implications to underwriters; if needed communicate with brokers and clients to discuss analysis results and reconcile differences.
- Provide data analytics expertise and problem solving, based on past modeling experience to underwriters.
- Support and training junior team members (in Bermuda & India) as required.
- Interpret/Validate property exposure data, and pro-actively make recommendations for the enhancement of the overall exposure reporting.
- Prepare and present independent insight and commentary on modeling summary narratives and other deliverables as required.
- Read, understand, and interpret technical documentation for models/perils.
- Develop and maintain key relationships with segment/other OBU catastrophe modeling teams.
- Work with other teams to validate internal/external model changes.

UNLEASH your potential

We're looking for someone who has these abilities and skills:

- Bachelor's degree in Mathematics, Statistics, Actuarial Science or related discipline.
- Completion of 1-2 Actuarial exams preferred but not required.
- A minimum of 2 years Commercial insurance experience and catastrophe modeling experience with RMS/AIR environments.
- Prior Portfolio analytics work is a definite asset.
- Experience with SQL, MS Access or other database software would be an advantage.
- Good interpersonal/communication skills with the ability to work in a team environment.
- Must have strong time management skills.
- Must be able to work longer than the normal work week during busy renewal periods.

Interested in this role?

Please email your application to: bermudahumanresources@xlcatlin.com or send to XL Catlin, O'Hara House, One Bermudiana Road, Hamilton, HM 08 (PH) 292-8515

Be sure to:
1. Include the Job Number and Title in the email subject.
2. Attach your current resume/CV to the email.
3. Send your email before the posting closes (date listed above).
