

**Bermuda Monetary Authority is committed to attracting and developing the best people who are dedicated to providing exceptional service.**

## **Senior Analyst/Developer**

**Management Services Department**

Bermuda Monetary Authority is seeking the services of a highly skilled professional to work as a Senior Analyst/Developer within our Management Services Department. The successful applicant, working under the direction of the Assistant Director, will have as their primary role the designing, building, implementation, support and maintenance of cutting edge regulatory environment support software.

**This is a key role for the Authority and the post-holder will be responsible for:**

- Contributing at a senior level to the data management processes by implementing a solid, robust, extensible solution design that supports key business flows;
- Building and maintaining ETL code to populate the Authority's data warehouse;
- Producing feasibility studies, software specifications, end user documentation and software documentation, including detailed flow charts and diagrams outlining system capabilities and processes to address the Authority's business needs;
- Performing problem resolution and on-call support to ensure the ongoing availability of the Authority's computing solutions;
- Maintaining a broad and current knowledge of state-of-the-art technologies, in particular, those technologies used for regulatory reporting and financial services supervision; and
- Performing other related work and special projects as assigned by management.

**This position requires a proven business background. Therefore, the post holder should have:**

- A Bachelor's Degree in Computer Science or a related discipline together with certification in a relevant subject area i.e. MCSD, MCTS, MCPD, MCAD, including a knowledge of SSIS/SSRS/SSAS;
- A minimum of five years' post qualification experience in the financial services industry, with particular emphasis on insurance industry experience;
- Demonstrated experience in VB.NET or C#.NET and XML;
- Demonstrated experience with database design and development using SQL;
- Demonstrated experience with SQL Server 2008, 2012, 2014;
- Demonstrated experience with Object Oriented Design and Principals;
- Demonstrated experience with SharePoint 2007 and 2013 administration;
- Experience with SOA Methodologies;
- Familiarity with Financial XML Standards (FIXML, FpML, XBRL, ISO 20022, SWIFT);
- The ability to work effectively in a team environment; and
- Excellent verbal and written communication skills.

Bermuda Monetary Authority is the integrated regulator of the financial services sector in Bermuda. We offer broad exposure to international regulatory issues, special projects and a variety of work experiences.

If you are looking for a challenging opportunity in a team environment, we invite you to submit your application online via our 'Careers at BMA' page at [www.bma.bm](http://www.bma.bm). Applications for this position must be received no later than 6th October 2017.
