

Server Storage and Virtualisation Consultant

The CCS Group has been delivering complex information technology solutions into Bermuda, the Caribbean, North America and Europe for over 30 years. Since its inception CCS has maintained its competitive advantage by providing innovative, leading edge technologies with expert professional services and on-going support.

CCS is looking for an enthusiastic IT professional to join CCS' Server Storage and Virtualisation Division. The successful candidate will be primarily focused on the design, implementation and on-going support services for the solutions within the CCS' Server Storage and Virtualisation portfolio. However, the successful candidate will also be responsible for assisting the sales team with solution designs, proposal content, project scopes, project plans and overall presales assistance. Finally, the successful candidate will assist with mentoring within the team and assisting with development and training opportunities.

The successful candidate must be comfortable working in diverse customer environments with a multitude of technologies related to desktop, server, storage, enterprise software and virtualisation solutions.

Required Experience and Certifications:

- 5 years of experience in a similar role
- Valid storage certificates from any major SAN vendors
- Valid virtualization certificates from VMware (VCP v4/5)
- Valid server and core infrastructure certifications from Microsoft (MCITP, MCSE)
- Strong Microsoft Core Infrastructure (AD, DNS, DHCP) design, implementation and operational skills
- Strong VMware server virtualization design, implementation and operational skills
- Strong server and storage design, implementation and operational skills
- Working Knowledge of standard project lifecycle phases
- Professionally presented with strong customer-facing skills and the ability to build and maintain working relationships with customers at all levels
- Experience with the following would be considered advantageous – Microsoft Exchange and/or SQL server, fibre channel switching for SAN and/or VMWare, Citrix desktop and application virtualization
- Excellent verbal and written communication skills
