

## Senior Actuary, Underwriting and Portfolio Management

### The role

Hiscox Re is seeking a candidate for the role of Senior Actuary, Underwriting and Portfolio Management reporting to the Director of Underwriting, Bermuda. This unique opportunity is for a highly qualified candidate to work with the Underwriting department to utilize skills as a pricing actuary, with the broad remit to contribute to the construction of a diverse portfolio of complex reinsurance risks, and to help expand our Portfolio Management capabilities, producing analytical tools and management information. The subject portfolio encompasses all major reinsurance lines of business with an emphasis on Specialty classes such as Crop, Nuclear, Terrorism, Cyber, Mortgage, Surety, Reps and Warranty, etc. This role will operate on a bifurcated basis supporting both the underwriting execution of the business plan and the portfolio management analytical requirements that complement the interaction of complex third party capital structures in the business.

The successful candidate will have a proven track record in pricing profitable business and responding quickly to new underwriting opportunities in the market. The use and development of analytical reporting tools or complex portfolio analytics is essential in the portfolio management component of the role.

### Key Responsibilities

- Support Director of Underwriting of Hiscox Re Bermuda in establishing a strategy beyond 'business as usual' and drive a culture of proactive engagement with capital, products, clients, and brokers
- Actuarial pricing support for both contract level workflow and portfolio level analytics
- Support and develop Hiscox Re Products – assessing coverage, pricing criteria, risk and correlation considerations
- Interact and develop business relationships with brokers, consultants, and third parties
- Manage specific areas of portfolio analytics within the Portfolio Management team
- Develop key performance measures and management information to communicate the effectiveness of the pricing strategy, etc.
- Develop the technical capability of the team with appropriate systems and techniques
- Conduct profitability reviews for different segments of the business and ensure that the results are clearly communicated to business heads and management

### The Requirements

- Ten years of experience in the reinsurance industry in highly technical roles
- Fellow of the Institute of Actuaries or equivalent certification
- Have a challenging and constructive commercial outlook with ability to question the status quo
- Self-motivated, driven and able to lead and gain the commitment of others
- Be a true collaborator and team player, both internally and externally, with a desire to lead
- Strong mathematical skills with experience in pricing, capital modelling, computer coding tools - ReMetrica, Iglou or similar tools, @Risk, SQL, VBA

**Closing Date: July 23, 2018**
