

Q-Ship Ltd.

requires a

Senior Land Surveyor

Duties will include cost estimating for new projects, completion of projects to time and budget, the quality assurance of survey projects, liaising with clients, architects, engineers and contractors.

Successful candidates will have a minimum of 7 to 10 years of working experience in the surveying profession and possess a degree or equivalent in Geomatics or a related surveying discipline making them eligible to become a Professional Registered Surveyor. The candidate must be able to demonstrate a practical working knowledge of cadastral and topographical surveys as well as being proficient in construction and engineering surveying: specifically, small and large capital projects. This would include, but not limited to precision steel erection and concrete works. Strong written and verbal skills are necessary and knowledge of Leica and Sokkia Robotic Total Stations, Carlson Data Collection Reduction software would be preferable.

Resumes with references may be submitted by October 3rd, 2018 in complete confidence to:
