- Monitor the profitability of the book (including producing quarterly reports)
- Monitor rate change activities (including monthly reporting)
- Support Reinsurance process as needed
- Support the yearly planning process including indications, trend analysis etc.
- Various studies including rating variable usage and usage of external data
- Involvement with IT in implementing changes/updates as necessary
- Participate in Round Tables and assist with pricing of risks
- Train Underwriters and implement best practices to maximize accuracy of rating tools and complete data capture and enhance rating modules when change is necessitated
- Creative ways of looking at data and coming up with new analysis that may not be in existence today
- Support pricing of large accounts, communication with underwriters
- Constantly find ways to improve processes
- Other duties may be assigned

You will report to Actuary, Professional Lines.

### SHARE your talent

We're looking for someone who has these abilities and skills:

- Bachelor's degree in actuarial science, mathematics, statistics or a related field
- Completion of at least three actuarial exams as prescribed by the Casualty Actuarial Society or equivalent
- 2 to 5 years of actuarial work experience in the general insurance industry
- Experience working directly with underwriters on pricing professional lines accounts
- Good communication skills and the ability to interact with and hold discussions with clients and brokers as needed
- Proficiency in the use of Microsoft software applications, including Word and Excel, and familiarity with one or more stochastic software tool
- Experience in programming using Visual Basic for Applications (VBA)
- Ability to build, maintain, and manage relationships and trusted partnerships internally
- Ability to work on own initiative while performing large and complex tasks according to established procedures, using discretion to ensure objectives are met most effectively.
- Ability to provide innovative solutions to problems based on strong understanding of business objectives through effective communication
- Analytical thinking skills
- Ability to communicate with the courage and confidence to speak up skillfully
- Commitment to continuous learning, accuracy and attention to detail
- Excellent work ethic and ability to work extended hours
