*We are retained to recruit by
many of Bermuda's finest
employers. Nissan
is one of them.*

Actuary Manager

Nissan Global Reinsurance Ltd. (NGRe), an affiliate of Nissan Motors Ltd., is the global centre of competence for Nissan's consumer insurance business and reinsurance. Currently, the insurance portfolio amounts to more than \$600m. Nissan Global Reinsurance provides Nissan customers with insurance products and supports the strong growth of our Nissan and Infiniti brands. Thus, Extended Warranty and Extended Service Contracts as well as other automotive insurance products are the major focus. NGRe is looking to recruit a dynamic, self-motivated professional for the position of Actuarial Manager.

Duties & Responsibilities:

- Participate in the semi-annual reserving process for global Property & Casualty programs
- Develop profitable pricing for global Property & Casualty premium renewal programs by working in close collaboration with external risk transfer resources
- Review pricing, pricing methodology and reserving of consumer insurance products such as Extended Service Contracts/ Extended Warranty for all relevant markets
- Develop profitable pricing and product design strategies jointly with the markets
- Support and manage capital models for regulatory purposes including preparation of Group BSCR and Solvency II reporting
- Assist in maintaining an internal database for the various markets and participate in the monthly premium cession data entry for reporting purposes
- Support with any requests from NGRe's Parent company located in Japan, subsidiaries in Canada, Malta, US and global premium ceding markets
- Forecast and manage risk within regulated requirements and profit targets assigned by the President of NGRe
- Participate in the improvement of the risk management process internally and with our subsidiaries
- Perform ad-hoc pricing and capital scenarios to support business growth

Minimum Qualifications, Skills & Experience:

- Bachelor's degree in Actuarial Science, Mathematics or Finance-related discipline
- Candidate working towards a recognised international actuarial designation
- At least 3 years' reserving experience within the (re)insurance industry; pricing and risk capital modelling analysis experience preferred
- Advanced knowledge of Excel; knowledge of Tableau and Access would be an asset
- Familiarity with capital modelling and insurance regulation filings in Bermuda (BMA) a plus
- Ability to communicate complex financial and statistical information in a clear and effective form
- Proven ability to develop unique solutions to problems
- Excellent time management, organizational, written and verbal communication skills
- A strong work ethic, coupled with a high degree of motivation to work independently or as part of a team
