Risk Analyst

Our client, Qatar Reinsurance Company Limited (Qatar Re), is a licensed Class 4 reinsurer writing multi-line coverage globally for all major property, casualty, and specialty lines of business. Their strong team of seasoned underwriting and financial professionals offers clients a unique experience and extensive in-depth technical and industry expertise across all international markets.

Qatar Re are currently seeking a Risk Analyst to join the Bermuda office. Reporting to the Bermuda Risk Manager, but working as part of an integrated international team, the Risk Analyst will support the day to day operation and ongoing development of Qatar Re's risk analysis and reporting capability for the Group's international operations. These include an international reinsurance business, a Lloyd's syndicate and direct insurers targeting the UK wider European markets.

Duties & Responsibilities:

- Reviewing and validating quality and completeness of data provided by others
- Drafting high quality and accurate presentations of output for senior management, Board and Board Committees, articulating technical information and its implications to non-technical stakeholders
- Working closely with finance colleagues to prepare aspects of regulatory reporting in Bermuda, the UK, Malta, Gibraltar and and other relevant jurisdictions
- Performing analysis to support management, Board, regulatory, rating agency and public reporting
- Researching and communicating rating agency methodology changes
- Preparing calculations on regulatory and rating agency bases
- Providing risk input to Quantitative Reporting Templates for Solvency II regulated entities
- Supporting model change and validation through carrying out various validation tests and maintaining robust documentation
- Proactively engaging with the providers of data and stakeholders across the company to embed the data quality policy
- Supporting the development of systems and processes related to risk and capital management
- Delivering risk modeling and analyses on proposed and implemented new strategies; quantifying changes to the company's risk profile arising from alternative strategic initiatives
- Supporting wider risk management activities, such as risk attestation
- Responding to frequent ad-hoc requests for analysis, data gathering and reporting
- Involvement with other special projects and initiatives as required

Minimum Qualifications, Skills & Experience:

- Bachelor's degree or higher in a relevant numerate discipline
- Must hold internationally recognized professional accounting designation, actuarial designation or be working towards an actuarial designation
- 3 years' experience working with the (re)insurance sector
- Understanding of reinsurance and the Bermuda, European or Lloyd's markets and regulatory regimes
- Proven experience in identifying and implementing process improvements and efficiencies
- Excellent IT skills including a high proficiency in Excel
- Demonstrated ability to present risk reward analyses to support risk-based decision making preferred
- Experience of working in multi-disciplinary, multi-location teams an advantage; ability to travel to the UK without a visa preferred
- Team player with excellent written and verbal communication and interpersonal skills
- Strong attention to detail and proven ability to act with professionalism, reliability, integrity and trustworthiness
- Diligent, self-driven and organised, with excellent time management skills

To apply please send your résumé to bdajobs@expertise.bm or apply online at www.BermudaJOBS.com.

All enquiries will be dealt with in strict confidence.

Closing Date: October 26, 2018
