

Bermuda Environmental
Consulting, Ltd.

Senior Land Use Planner

Bermuda Environmental Consulting Ltd., is a professional environmental and land use planning consultancy which services a wide range of clients including the private sector, government and NGO's. We combine a strong scientific foundation with innovative thinking and practical experience to offer a full range of environmental and planning consulting services.

We are seeking a highly skilled, experienced and motivated Senior Land Use Planner with proven project management capabilities to provide a range of land use planning and environmental impact assessment functions for our company. The nature of our work dictates an applicant who can work on a flexible basis with remuneration based on billable hours.

Responsibilities:

- Scope, direct, and oversee complex projects unsupervised, including coordinating any required sub consultants
- Provide editorial support and quality assurance on all forms of technical and budgetary reports
- Prepare accurate, responsive work plans, budgets and associated contracts
- Monitor and manage project scopes and budgets for ongoing projects
- Manage and/or assist as needed, with the preparation of land use planning and environmental documents, including preparation of plans, studies, letters, reports and appeals; planning and environmental analyses; and/or verbal and written technical advice to clients
- Provide background research for a variety of topics related to complex environmental and planning projects
- Provide land use planning advice to clients and prepare planning applications
- Collect, analyze and interpret analytical and written data
- Participate and coordinate public and stakeholder meetings and public participation/outreach processes
- Develop strong working relationships with clients and sub consultants

Qualifications, skills and experience: The ideal candidate will possess:

- A university degree in Urban Planning
- Full accredited membership for a minimum of eight years in a recognized professional land use planning institution
- A minimum of ten years professional planning experience in the public or private sector
- A minimum of five years' experience working with developers and other clients, with a focus on developing client relationships and coordinating projects
- Thorough knowledge of and experience with local government planning legislation, regulations, policies and practices
- A good understanding of the building permitting processes
- Demonstrated knowledge of planning and environmental permitting processes
- Sound knowledge of the functions, objectives, practices and principles applicable to land use planning and EIA
- Experience in the conduct of EIA and have had direct involvement in the preparation of EIS
- Expert project management and budgeting skills
- Advanced computer literacy
- Excellent facilitation, presentation, written and oral communication skills
- Superior problem solving, conflict resolution and negotiation skills
- Experience with client development and management
- A demonstrated aptitude for problem solving, researching and analyzing information and clearly communicating the results
- Technical expertise in the design, implementation, interpretation and presentation of data for environmental studies and investigations in spatial planning and related disciplines
- Ability to work independently and as part of a team
- Demonstrated ability to successfully work on several projects simultaneously and deliver projects within budget, on time and meet tight deadlines as required

Interested candidates should apply in writing with resume and professional references to: Mr. Jack Ward, Bermuda Environmental Consulting Ltd, P.O. Box FL 487 Flatts FL BX; Tel: 400 5990; jack@environmentbda.com

Closing Date: Thursday November 8th, 2018
