

Our client, Fort Knox Bermuda, is seeking a Manager, Electronic Publishing, who holds a Bachelor's Degree in Information Technology and is certified in database design and management. The applicant must have a minimum of three years' experience in design and management of Total Recall® and Next Page® software systems. The ability to make presentations to clients is critically important as solutions must be presented and explained. It will also be the responsibility of this individual to train other staff. Other general software experience, including the Microsoft suite of tools and specifically SharePoint and Microsoft Access, is required.

The ability to lead a team with strong interpersonal and written skills is important. Experience in Project Management is also an asset.

Qualified applicants may apply by sending a resume with a minimum of two written recommendations via e-mail to wrightconsulting@mail.com or by post to:
