 - o Size rings, including enlarging & reducing the size of rings
 - o Set loose diamonds & loose gemstones
 - o Fabricate jewelry
 - o Adjust the size of necklaces and bracelets
 - o Mount diamonds and stones into pendants and earrings
 - o Prepare mountings by placing heads into semi-mounts
 - o Prepare findings for sale
 - o Replace stones in jewelry
 - o Plate jewelry with rhodium as needed
 - o Polish jewelry as needed
 - o Clean and electro clean jewelry on a periodic basis to maintain luster
 - o Maintain jewelry in sellable condition for store use
 - o Size watches
 - o Replace watch batteries if possible
 - o Remove links from bracelets and watches
 - o Perform repair work on jewelry from companies affiliated with Diamonds International
- Control all gold used for sizing and fabricating jewelry and establish how much gold is used for each individual work order.
- Refine all gold and platinum
- Undertake all tasks with complete and focused care to avoid damage to the materials or gemstones
- Control the inflow and outflow of Workshop jobs
- Operate a secure workshop ensuring the security of high value items
- Dispose of hazardous or toxic waste in accordance with local environmental law
- Control Workshop pricelist and charges
- Maintain a harmonious relationship with all staff and satisfy their Workshop requests (where possible)
- Use safety equipment provided in a proper manner
- Enforce company policies in reference to workshop rules
- Use the workshop price list to establish prices for jeweler's work
- Ensure the appropriate manager's signatures are included with the work order
- Establish charges for custom work
- Order all jewelers sizing stock, findings, watch batteries and perishable supplies
- Maintain accurate banks establishing the use of findings and sizing stock
- Control the use of perishable supplies and jewelers supplies including powders, solders, polishing compounds, rhodium, and files, bits etc.
- Reorder tools as needed through established suppliers provided by the company
- Obtain the required authorization for all orders
- Maintain the jeweler's worksheet to control all daily work which is performed
- Review all jewelers envelopes to check for proper descriptions of work and proper charges
- Assist with additional tasks as assigned by the Operations Manager/Regional Manager

Required skills and qualifications:

Key skills and requirements to do the role:

- Must have 24 months experience working as a Jeweler
- Must have knowledge of: noble metals, precious and semiprecious stones; welding, cutting, stamping and drafting techniques; types of settings (prongs, bezel and channel); metal melting, stretching, laminating, cutting, inlay and fretwork
- Must have the skill set to assemble all elements to create a very particular item and the ability to complete each task within a short period of time to serve cruise ship clients

Closing date: 30 November 2018
