

VP, Actuarial Reserving & Capital

QBE is an Australian listed company with a Group Head office based in Sydney, and has operations in 37 countries with over 14,000 employees worldwide. It is one of the top 20 insurers and reinsurers worldwide as measured by net earned premium. QBE Reinsurance Services (Bermuda) Limited is the employment entity of QBE's captive reinsurer Equator Re and Blue Ocean Re and underwrites property catastrophe, property risk and casualty business globally, on an excess of loss and proportional basis. 2017 written premium was in excess of US\$1.5 billion. The company is seeking a qualified professional to join the company as the **VP, Actuarial Reserving & Capital**.

Reporting to the CFO, and managing a small team, the successful candidate will manage the reserving and Economic Capital modelling processes, and all related analysis and reporting. Key responsibilities will include ensuring financial results are accurate with regard to reserving assumptions/outputs and ensuring calculations of ECM required capital and probability of capital breach metrics accurately reflect the inherent risks of the company and movements can be explained to management. ***For a full role description, please contact hr@psolutions.bm or call 441-232-5270.***

Interested persons must possess the following:

- Minimum of a bachelor's degree or equivalent combination of education and work experience
- Professional actuarial designation (e.g. Fellow of Institute)
- 8+ years relevant experience in the actuarial field with specific experience in the reinsurance industry
- Demonstrated expertise in actuarial techniques and best practices. ResQ and Iglu are advantageous
- Solid understanding of financial accounting concepts and in particular IFRS
- Strong computer systems and software knowledge with advanced working knowledge of economic and accounting principles and practices, and the analysis and reporting of financial data as well as proficiency in using data querying tools
- Ability to manage a team by setting guidance and direction, providing timely feedback and understanding team dynamics to utilize the strengths of each member to achieve results
- Ability to use logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems
- Understanding of how to identify complex problems and review related information to develop and evaluate options and implement solutions
- Effective communication and collaboration skills with the ability to influence and persuade decision makers into understanding requirements

Please apply in confidence, no later than **February 1st 2019 to:**
