

Surface Trends Ltd.

Seeking to fill the following full time position

Construction/Building--Project Manager:

The successful candidate will demonstrate prior experience, be responsible, and fully knowledgeable in overseeing all aspects of a Stone & Tile contracting business of similar size. Candidates must have a Bachelor's Degree with relevant experience as a Stone/Tile Project Manager. A proven track record of delivering first class finished projects on time and within budget while maintaining, meeting, and/or exceeding clients' expectations.

Relevant job responsibilities-

Fully understand all aspects of Stone contracting. Responsibilities include, but are not limited to, the following- 1) Blue print reading, understanding tile/stone specifications, estimating, quantity take offs, procurement of special stone/tile components, full fabrication and installation. 2) Understand all tools, equipment, and materials to carry out a successful project. 3) Being fully component to properly deal with all procedures and/or challenges encountered, to achieve a successful project, both financially and aesthetically. 4) Fully understand a wide variety of stones and know the various classifications/regions they originate. Able to oversee multiple large and small size stone/tile projects simultaneously. Resolving design and development issues. Prepare, log, and monitor daily project activity- monitoring manpower efficiency, ensuring projects are completed on time, on schedule, within budget, and precisely to the contract details.

Marble & Tile Specialist:

Master Stone and Tile installers with minimum of at least 5 yrs experience. This position requires various aspects to properly install Marble and Tile products; both in full slab and tile formats. Included (but not limited to) in this role is the ability to layout, cut, grind, polish, epoxy grout and accurately layout a wide variety of stone and tile products. Qualified individuals must know how to properly install underlayments, heating floor mats, rendering, surface preparation, and/or leveling/plastering.

For both positions employees must possess the following-

Ability to work extended hours, under pressure to meet tight deadlines (essential). Be punctual, motivated, work on their own initiative (unsupervised if necessary), willing to train and get along with others. Liaising with clients and a variety of professionals including architects, designers, subcontractors, vendors, etc. Have no criminal records, be honest and helpful at all times. Drug and alcohol free.

Fully qualified individuals should apply in writing no later than the February 22, 2019 to the following address:
