

WOMEN EMPOWERMENT

When I think of empowerment, I think of how women are mistreated. Here is an essay with 3 traits that I believe are important to empowerment.

Equality is a very touchy topic to me because I believe everybody should be treated right no matter what sex, age and, color. India's abuse of women is the biggest human rights violation on Earth. In 2016 the rape of minor girls increased by 82% compared with the previous year. THIS NEEDS TO STOP!

Power is one of the things that ALL women have. We are fighting to make this world a better Place. Power is the capacity or ability to direct or influence the behavior of others or the course of events.

Belief is very important because in order to achieve you have to believe in yourself when I was young my mom always told me the body can achieve what the mind believes.

In conclusion I think if we actually invest in the young girls in our community maybe we can have the first Female President or maybe our First female Fire Chief. Or maybe I can serve in the Police department like my Godma Chaquita. Girls Run This World.
