

## Senior Industrial Electricians/ Forepersons & Licensed Journeyman Electricians

Our Client **BAC Universal Electric**, Bermuda's longest serving electrical contracting and supply Company, have an immediate need and invite applications for multiple vacancies.

### Senior Industrial Electricians/Forepersons

Reporting to the Project Manager, the incumbents are responsible for ongoing installations, maintenance, repair, testing, and performance of industrial electrical equipment and associated controls.

#### Duties & Responsibilities:

- Oversee a staff of industrial technicians
- Read and interpret drawings, blueprints, schematics and electrical code specifications to determine layout of industrial electrical equipment installations
- Install, examine, replace or repair electrical wiring, receptacles, conduits, switches, feeders, lighting fixtures and other electrical components
- Install and test mineral-insulated copper-clad cable
- Install cable tray and associated cable in an industrial environment
- Test electrical/electronic equipment for continuity, current, voltage and resistance
- Maintain, repair, install and test switchgear, safety switches, regulators and reactors, up to 4,160VAC
- Maintain, repair, test and install electrical motors, generators, industrial storage batteries and hydraulic and pneumatic electrical control systems
- Troubleshoot, maintain and repair industrial, electrical/electronic control systems and other related devices
- Troubleshoot and repair PLC, VFD and DC drives
- Perform preventive maintenance, complete maintenance reports

#### Minimum Qualifications, Skills and Experience:

- Knowledge of industrial electrical equipment and associated electrical/electronic controls
- Previous experience as an industrial electrician in production and turbine/cogen facilities preferred
- Ability to multitask in a fast-paced environment
- Must adhere to all equipment specifications and technical manual instructions
- Must be well versed in lock-out/tag-out procedures and possess a strong safety orientation and record

### Licensed Journeyman Electricians

#### Duties & Responsibilities:

- Commercial, industrial, and residential electrical installations and troubleshooting
- Interpret drawings, specifications and all applicable codes
- Installation, terminations and troubleshooting of control wiring systems
- Generator and UPS installation and controls
- Fire Alarm systems installation
- Install, alter, add and/or repair power and lighting systems
- Main Distribution and panel installation
- Establish and maintain customer relationships

#### Minimum Qualifications, Skills and Experience:

- Recognised electrical qualification
- Licensed electrician by a reputable professional organisation
- Minimum 3 years post apprenticeship experience as an electrician
- Work independently of direct technical supervision
- Experience in daily supervision of apprentices
- Must be conscientious, reliable and dedicated to providing quality service to clients
- Effective oral and written communication skills
