

SVP, Underwriting

RenaissanceRe Holdings Ltd., through its operating subsidiaries, is a leading global provider of reinsurance and insurance. Our team shares a passion for providing exceptional service, innovation, creativity and a strong belief in the entrepreneurial culture which is a cornerstone of our competitive advantage.

The SVP Underwriting is responsible for the production, marketing and analysis of property reinsurance, predominantly Property Catastrophe lines. The individual must possess a strong US Property Cat Excess of Loss background with a focus on US business, technical cat modelling expertise, established broker and client relationships, strong analytical capabilities with a focus on catastrophe modelling and statistics, and must have experience with ILS and other financial vehicles related to catastrophe insurance. The SVP Underwriting must have proven leadership and management skills with an ability to lead by example and garner immediate credibility both inside and outside the organization. The SVP Underwriting facilitates the coordination and communication across the global underwriting platform to achieve client focus and business development in accordance with Corporate Strategy.

Responsibilities include:

- Manage and underwrite a portfolio of Property Cat XL covers, both US and International, with a focus on US business
- Work with various data sources to derive information for analysis purposes
- Verify and assess the adequacy of exposure information for pricing analysis
- Conduct analysis and modeling, concluding with recommendations on assumed primary and retrocessional catastrophe excess of loss submissions, capital market transactions and non-catastrophe risks
- Maintain key relationships with clients and brokers of Property Catastrophe reinsurance, and develop new business opportunities
- Work with clients to determine specific requirements, subsequently structuring products to address those needs (and variants from those needs)
- Assist in projects related to the improvement of RenRe's proprietary model: to include Catastrophe modeling; underwriting; and portfolio management
- Oversee catastrophe analysts through both transactional and project-focused management
- Engage in significant travel and interaction with clients and brokers including client entertainment and relationship building
- Managing analyst and junior underwriters

Education, Skills & Experience:

- A university degree essential with emphasis on economics, math probabilities, statistics techniques or simulation; advanced scientific degree advantageous
- Professional Industry designation: Associate of Chartered Insurance Institute
- At least 11 years' experience in the reinsurance industry, with a large portion in an underwriting capacity
- Have experience of underwriting in different markets, Lloyd's of London and Bermuda
- Experience in structuring and pricing reinsurance programs
- Detailed knowledge of worldwide insurance and reinsurance markets
- Knowledge of accounting implications of reinsurance structures
- Extensive industry contacts including established relationships with US brokers
- A strong reputation and proven track record of developing relationships with intermediaries and clients, while retaining complete underwriting objectivity
- Thorough understanding of computer systems and applications
- Experience with, and knowledge of, different catastrophe models
- Proficient knowledge of probability and statistics
- Proficient in Microsoft Office suite of tools as well as additional programs such as @Risk; SQL
- Excellent analytical, communication and interpersonal skills

This is a fast-paced business environment, demanding a strong work ethic and a results-oriented approach.

Written applications with Curriculum Vitae should be forwarded via e-mail to careers@renre.com or to SVP, Head of Human Resources, Renaissance House, 12 Crow Lane, Pembroke HM19.
