

Bermuda Monetary Authority is committed to attracting and developing the best people who are dedicated to providing exceptional service.

Senior Business Analyst Operations Department

The Bermuda Monetary Authority is seeking the services of a skilled and capable individual to work as a Senior Business Analyst in the Operations Department. Reporting to the Assistant Director, Project Management Office, the Senior Business Analyst will be responsible for assisting with the analysis and implementation of various technology solutions.

This is a key role for the Authority and the post-holder will be responsible for but not limited to:

- Working with various business units throughout the Authority to identify working needs and establish appropriate technical solutions
- Documenting requirements using process diagrams and cases, and applying data and rules analysis to the results
- Managing analysis artifacts throughout the project lifecycle and ensuring the delivered product will meet business needs
- Investigating and analysing problems and business requirements, including impact analysis of functional change on all systems and business areas and determining appropriate solutions
- Tracking and updating all issues through an issue log
- Monitoring and reporting of issues against targets before developing or implementing any necessary action plans to ensure issues are resolved or placed on an enhancement list
- Providing direction and effective/efficient issue resolution to internal and external users
- Recommending improvements and/or appropriate changes to policies and procedures

This position requires a proven technical and business background. Therefore, the post holder must have:

- A Bachelor's Degree or equivalent qualification in Business, Computer Science, Information Systems Management or equivalent field from a recognised institution or professional body
- A minimum of five years' experience in Information Services, of which at least two years should be within the Insurance business domain, ideally implementing re/insurance solutions
- Sound understanding of business modeling techniques/tools with experience in the development of business applications, business process re-engineering, implementation of business applications, gap analysis tools and techniques
- Experience with joint application development facilitation
- Experience in structured methodologies for the identification of user requirements and specification development

Bermuda Monetary Authority is the integrated regulator of the financial services sector in Bermuda. We offer the opportunity for broad exposure to international regulatory issues, special projects and a variety of work experience.

If you are looking for a challenging opportunity in a team environment, we invite you to submit your application online via our 'Careers at BMA' page at **www.bma.bm**. Applications for this position must be received no later than **14 June 2019**.
