Senior Actuarial Associate

F&G Re, a new life reinsurance company, is seeking candidates for the role of Senior Actuarial Associate. Reporting to the Chief Actuary, the successful candidate will be responsible for supporting the design, development, modeling and implementation of Annuity products.

Duties & Responsibilities:

- Development of life and annuity insurance products including design, modeling, risk analysis, filing support and implementation
- Maintain pricing models and pricing of reinsurance products
- Prepare and maintain models & reports, as well as participation in reconciliation with results
- Support the ongoing development and maintenance of capital and reserving models
- Support regulatory filings and management reporting
- Complete ad hoc projects as assigned on a timely basis
- Contribute to the generation of all required projections
- Analyze results demonstrating knowledge of actuarial concepts and processes
- Other projects as assigned

Minimum Qualifications, Skills & Experience:

- Bachelor's degree in Mathematics, Actuarial Science, or other numerate subject
- A minimum of 3 actuarial exams completed
- A minimum of 3 years' experience in an actuarial or similar analytical capacity
- Proficiency with database management, spreadsheet applications, and word processing software required
- Strong technical, analytical, organizational, computer, and team skills
- Fixed indexed annuity knowledge preferred but not required
- Exposure to Axis or similar actuarial modeling software preferred
- Highly articulate, with strong verbal and written communication skills
- Attentive to detail and highly conscientious about deadlines and duties
- Strong team player
