

The Hannover Re Group, ("the Group") with a gross premium of approximately EUR 19.2 billion, is one of the leading reinsurance groups in the world. The Group has expanded rapidly and continuously over the last years. Hannover Re (Bermuda) Ltd. is a subsidiary of German-based Hannover Re. The company is a center of excellence within the Hannover Re Group for property catastrophe excess of loss programs. As a core subsidiary, the Company is at the forefront of continuous improvement through its implementation of digitalization and automation. We invite applications for the position of:

Deputy Actuarial Analyst

The Deputy Actuarial Analyst will report to the Chief Risk Officer. For the cutting edge modeling of natural catastrophe risks we are seeking a highly qualified Analyst to strengthen our current team.

You Role: The responsibilities include but are not limited to:

- Use of catastrophe simulation models and Hannover Re internal quoting tools for quotations of Nat Cat and special lines of business
- Validation of third-party Nat Cat models
- Developing / customizing modelling and pricing applications for Nat Cat and other lines of business
- Communication of analysis results to underwriters and management
- Advance automation of workflows within modelling team through development / programming of proprietary tools
- Involvement in Hannover Re (Bermuda) and Hannover Re projects, especially regarding the creation of a quotation platform

Your Profile: The successful candidate will have a Master's degree or equivalent qualification in Mathematics or other natural sciences in addition to the following

- Up to three years working experience with natural catastrophe simulation models of AIR for North America and Europe
- Experience in validation of third-party Nat Cat models
- Excellent technical software skills in Microsoft Excel and Visual Basic / SQL
- Proven programming skills in C# and HTML5 (Angular, TypeScript)
- Knowledge of Java, C, R and Matlab is considered a plus
- Working independently on solutions to complex problems
- Excellent time management skills combined with the ability to work on own initiative and in a team
- Flexibility to work extended hours in particular during peak times as required
- Excellent communication skills (both written and verbal) and proven ability to work under pressure and meet tight deadlines
- Knowledge of German language is considered a plus
