

Join a world-class organisation

Chubb Tempest Reinsurance Ltd. invites applicants for the position of **Catastrophe Modeller**. The position is suited for someone who is highly motivated, a self-starter and can work independently.

With operations in 54 countries, Chubb is one of the world's largest multi-line property and casualty insurers.

Responsibilities include, but are not limited to:

- Performing underwriting support for Chubb Tempest Reinsurance Ltd. through use of catastrophe models and other decision-support tools
- Account database management
- Assisting underwriting team in project work and testing of models
- Analysis and modelling of clients and prospective client exposures
- Use of proprietary in-house tools to effectively extract, manipulate and report on modelling information
- Requires verbal and written communication with clients to clarify submission data sent
- Assisting in catastrophe model evaluation, upgrade, and documentation
- Coordinate with I.T. for system configuration and testing
- Developing and testing new features of Chubb Tempest Reinsurance Ltd.'s internal underwriting system

The successful applicant should have:

- 1-2 years' experience, preferred as a Catastrophe Modeller or recent graduate
- Bachelor's Degree in Risk Management, Math/Statistics or Natural Sciences desirable but not required
- Working knowledge of an MS Windows environment and the following software packages: Access, Excel, PowerPoint and SQL
- RMS/AIR modeling experience a plus
- Excellent written and oral communication skills
- Ability to work in a small, motivated underwriting team
- Ability to meet deadlines and to work overtime at key renewal periods
