

Senior Finance Analyst

MS Amlin is a leading independent insurance group operating in the Lloyd's, UK, Continental Europe and the Bermuda markets. On 1 February 2016, MS Amlin was acquired by the Japanese Tokyo based MS&AD Insurance Group. There are compelling reasons for our brokers and clients to work with us; the empowerment and skill of our people, our well capitalised operating platforms, the strength of our ratings, and the locations where we operate to name but a few. The value we add is also reflected in the many industry awards MS Amlin has received.

We are currently looking for a Senior Finance Analyst in our Bermuda office:

The role

- **Financial planning and Forecasting** - Preparation of information in support of the annual business planning, regular reforecasts and related analysis in line with Amlin standards. Ensure that all outputs are fully documented, prepared on a timely basis and accurate for review purposes to enable a detailed analysis of the business drivers associated with the classes and markets covered.
- **Performance monitoring** - Provide analysis to enable the monitoring of actual results against planned results and prior period.
- **Management Information** - Preparation of accurate and timely financial management information and key performance indicators ensuring that data produced remains relevant for management and executive purposes. The role-holder will develop management information and streamline processes as required by management.
- **Financial reporting** – Provide assistance with the preparation and review of statutory financial accounts (in accordance with Swiss CO) and regulatory information (for the two regulators FINMA and BMA) as required. Provide support in any tax related matters.
- **Risk Management** – Oversee the risk management reporting process for finance and actively participate in the risk management process. Preparation of ORSA reports.
- **Reserving Process** – Engage with senior management and the actuarial team on the reserving process to ensure efficient analysis and recording of reserves.
- **Board Papers** – Assist with the preparation of quarterly board papers.
- Other ad hoc and project related tasks as required with a specific focus on the implementation of IFRS 17.

Profile

- Undergraduate university degree together with a CA designation (or equivalent), and at least 5 years post qualifying reinsurance industry experience.
- Sound working knowledge of International Financial Reporting Standards and Solvency II requirements.
- Technical knowledge of reinsurance treaties and terminology together with solid experience working within a multi-currency accounting environment.
- Experience preparing financial reports and analysing financial statements.
- Prior experience with DiVA and JSOX reporting requirements.
- Strong IT skills, particularly in the area of report writing, together with working knowledge of an integrated multicurrency underwriting data and general ledger system. Familiarity with S2000, CODA and COGNOS would be an advantage.
- Proficient with the Microsoft Office Suite of applications, with advanced skills in Excel.
- Experience working with senior management and managing projects, together with sound track record of workflow optimization.
- Excellent written and oral communication skills, and with exceptional attention to detail and accuracy.
- A natural ability to use initiative and self-manage whilst being able to work well in a team environment.
- Must be willing to travel and work extended hours when appropriate
