RenaissanceRe

Senior Vice President, Corporate Risk

RenaissanceRe Holdings Ltd., through its operating subsidiaries, is a leading global provider of reinsurance and insurance. Our team shares a passion for providing exceptional service, innovation, creativity and a strong belief in the entrepreneurial culture which is a cornerstone of our competitive advantage.

The SVP, Corporate Risk is responsible for coordinating with Underwriting, Analytics, IT and Enterprise Risk Management in the structuring, analysis and risk representation of all group ceded reinsurance solutions within RenRe's integrated risk system. Additionally, the individual will lead enhancements to RenRe's capabilities for executing its established gross to net strategy.

Responsibilities include:

- Proactively monitor RenRe's evolving net risk profile, highlighting trends before they become issues and developing feedback loops across teams
- Utilize reporting and analysis tools to provide risk insight and decision support, particularly for ceded and the net risk profile
- Seek ways to enhance the integrated system to improve the effectiveness of UW teams
- Create or refine new workflows for the efficient management of RenRe's net portfolio utilizing multiple balance sheets and multiple sources of capital, while coordinating with underwriting, operations, claims and finance teams
- Innovate, research, analyze and evaluate strategic ceded underwriting solutions including traditional retro purchases, catastrophe bonds, industry loss warranties and derivative contracts
- Monitor the aggregation of underwriting, reserve and counterparty credit risk
- Member of the Counterparty Credit Risk Committee, ensuring appropriate governance over counterparty credit risk
- Perform analyses and prepare reports related to ceded reinsurance for the executive committee, board of directors, regulators and rating agencies
- Review workflows across multiple business units, verify and provide additional transparency for ceded solutions in support of the gross to net strategy
- Understand relevant components of the risk modeling process and model developments related to pricing, risk selection, aggregation control and management of risk
- Ad hoc projects as required
- Any other duties as required by management

Education, Skills & Experience:

- A university degree in actuarial science, mathematics, statistics or a related field
- A minimum of 10 years of experience in the reinsurance industry including capital modeling, underwriting, portfolio management, and enterprise risk management
- Proven track record in executing a successful gross to net strategy utilizing multiple balance sheets and third-party capital
- Proven experience in structuring, analysis and purchase of ceded reinsurance solutions including Industry Loss Warranties, traditional UNL and Catastrophe Bonds
- Proven experience managing a highly technical team of software developers and analysts to create tools for risk and underwriting teams
- The ability to manage internal and external relationships
- The ability to produce superior work results in an efficient and timely fashion
- Excellent analytical, communication and interpersonal skills

This is a fast-paced business environment, demanding a strong work ethic and a results-oriented approach.

Written applications with Curriculum Vitae should be forwarded via e-mail to careersbda@renre.com or to Human Resources, Renaissance House, 12 Crow Lane, Pembroke HM19.

Closing date for applications: Thursday, August 6, 2020
