Certified Tire Technician

Applications are invited from suitably qualified and experienced persons with a minimum of five years' experience and who possess formal certification as a "Tire Technician" (preferably from the Goodyear Corporation) to functionally manage our Goodyear tire franchise.

Applicants must be able to demonstrate detailed knowledge of all aspects of tire technology, including stock management, tire applications (particularly heavy equipment and commercial vehicles) and the general management of a busy tire shop.

The position requires the successful applicant to be flexible and willing to work extended hours. In return an excellent remuneration and benefits package will be offered.

Applicants must be able to furnish formal certification and written references in support of their application, which must be submitted in writing to the address below no later than 25 September 2020.
