At iEPC, excellence is every day. If you are committed to service excellence and have the relevant experience, we invite your application for the above position.

Key Responsibilities

- Responsible for managing engineering and construction projects to ensure that projects are completed on-time, on-budget and to specification
- Develop and manage projects from initiation through to closure.
- Track and report on project progress; including site activity, financial performance, and schedules.
- Coordinate internal and external resources to successfully deliver projects.
- Work directly with clients to ensure clients' needs are met.
- Manage stakeholder relationships
- Keep abreast of current local and international standards, trends, technologies and continually bring leading edge solutions for project delivery.
- Support training and development of employees.

Key Qualifications/Abilities

- Bachelor's degree in technical field or equivalent work experience.
- Proven track record of successful project delivery. Project Management Professional (PMP) Certification or equivalent would be an asset. Experience with construction and infrastructure is preferred.
- Minimum of five (5) years of experience.
- Working knowledge of Government Health & Safety legislation and regulations.
- Knowledge of best industrial practices related to project management.
- Strong technical, problem-solving, analytical, and interpersonal skills.
- Excellent communication and negotiation skills.
- Proficiency with MS Office and construction/project management software would be an asset.
- Must be a highly motivated and flexible team player.

iEPC is a drug & alcohol-free environment. The Company requires all successful applicants to take a pre-employment drug test once an offer of employment has been accepted.

iEPC is a part of the AG Holdings Limited Group of Companies. Visit agh.bm
