

PHLEBOTOMIST REQUIRED

Busy Medical laboratory requires a highly experienced Phlebotomist who is well qualified and satisfies the relevant requirements to draw blood samples in Bermuda. The post will include the drawing of blood and the handling of other medical specimens both in office and off site. The applicant must be well versed and experienced in drawing blood; a knowledge in theory only will not be accepted. The applicant must have skills in the use of computers and able to assist with front office tasks.

Applicants should forward a copy of their CV and 3 written professional references to info@hmc.bm

Closing date: May 10, 2021
